Dear DOJ,

I am a retired accountant that has consulted with over a hundred companies in my carrier. I have set up computer systems for a majority of these companies working with all the different platforms of their day. To make this brief I believe that Microsoft has its market share not by a monopoly but because they are the best. ANY restrictions on them would only be used by the competition to make our computer world move to mediocrity. I would encourage you for the sake of this Great Nation to end this nonsense as soon as possible.
